For students and residents alike, finding low-cost or no-cost assistance has never been easier, thanks to Help Central 2-1-1. The mission of Help Central is to connect people in need with services that offer help. This local non-profit organization was established to facilitate and improve public access to essential health and human services. They work with partner agencies to create a caring community that links individuals and families to the support services they need. By giving accurate information and connecting people to resources, they help strengthen families and our communities.

Help Central provides three ways that students and residents of Butte and Glenn counties can receive immediate information and support.

1- Call the 2-1-1 helpline 24 hours/day for live help
2- Text your zip code to 898211 for live help
3- Search the free public database at HelpCentral.org (211glenn.info or Butte211.org)

The HelpCentral.org website provides a way

to quickly find low-cost and no-cost health and human services in Butte and Glenn counties. This free online resource can be accessed 24 hours a day, seven days a week by any Internet user. You can search for specific services, or browse categories to find information.

Butte-Glenn 211 is working with county and state partners to provide accurate public health information and to connect residents with local resources. For live response, dial 2-1-1 or text your zip code to 898211 or visit the COVID19 website 211butteandglenn.org.

Because of COVID-19, information and access to resources is changing rapidly as many social service agencies and their workers are following the stay at home order. Some services may now not be available in person, but may be accessed by phone or online. Butte-Glenn 211 is doing their best to track these changes and updates in real time. Always call ahead before visiting an essential services location.

KNOW YOUR RIGHTS

Not only is sex without consent a crime, but being pressured or forced into any sexual situation you're not ready for can do lasting emotional damage. It's not enough to just assume someone wants sex as much as you, you really have to ask!

ANY sexual activity that is

UNWANTED, UNWILLING or UNINVITED...

...is NON-CONSENSUAL & AGAINST THE LAW!

NO. It is a complete sentence.
